

For Hire

MG ZR 160 by i-tech racing

Freshly built and very competitive ZR 160 for hire.

Started building this car 2018 but got sidetracked with other builds. Then Covid etc, and back on with the build from summer 2021. This is a full nut and bolt build, everything removed, inspected and replaced. Many new parts. Refreshed the engine June 2021. Finished ready for 2022 season.

I personally drove this car in its shakedown race at Brands 2022 to finish P1.

Available for the MG Trophy Championship and similar race series.

We're offering this rental car as a complete 'Arrive n Drive' package, just turn up and go. Novice drivers (not raced ZRs before) will need a test day first. We can accommodate a one off drive/race to a full season. Contact me for the finer details.
