

MG Trophy Championship Technical Specification GZR/0001

Instructions to upgrade a PG1 gearbox for class A (190) use :-

Using a standard PG1 box add the Quaife ATB diff.

This can be done yourself or it can be converted for you by the Trophy Championship approved gearbox service provider CMC Motorsport*. Your gearbox will need to be sealed following this work, this can be done by CMC Motorsport if they do the work for you. If you do the work yourself the seal will be fitted at your first meeting by our MSA approved scrutineer but the bolts shown in GZR/0002 will have to be pre drilled by you to enable the seal to be fitted.

Price of parts

Quaife ATB diff	£605 + vat
Fitting of the above and sealing by CMC Motorsport	£125 incl vat
